

For fixed sows

Floors are often slippery and hard in farrowing barns. The PORCA KN mat quickly and easily provides improved slip resistance, more comfort and thermal insulation. It is easy on the sensitive shoulder section of sows and reduces the danger of teat injuries. PORCA KN is a single mat without a bite-optimized Protect surface.

- Single mat
- Simple solution for retrofitting paved pen floor areas as required by law
- Easy to clean and disinfect

Installation and fixing

Mats must be secured to prevent them slipping (e.g. long screws secured with nuts from underneath, slat anchors fitting to the floor, ...).

As a rule, 2 fixings in the middle of the mat are sufficient

Removal and cleaning are not hindered

Maintenance tip

Treatment with a high-pressure cleaner and standard cleaning agents possible.
